Serving New Hampshire Since 1899.

Granite VNA opened New Hampshire's first **Hospice House** in 1994 to help provide community members with a peaceful and supportive end-of-life journey. While many of the patients who receive hospice care do so at home, there are times when it may be beneficial to receive care at the Hospice House. The Hospice House is located at 240 Pleasant Street in Concord.

The Hospice House is an inviting 10-bedroom home that offers patients and their families a comforting environment that allows families to focus on spending quality time together while hospice staff and volunteers provide around-the-clock care, guidance and support. Amenities include a pull-out sofa bed in each patient room for family and friends to rest, personalized dining options, large living room and family kitchen areas, a screen porch, a multi-faith meditation room and internet access.

Outdoor spaces include a large, accessible wrap-around deck, a nature path and the Susan McLane Memorial Garden where families can enjoy fresh air and beautiful surroundings.
